## Task 1 – Start the main Project work – 1hr

Your team now has about 6 weeks to produce a useful outcome for project work. Your team is expected to closely follow and use the Scrum process.

### SCRUM FRAMEWORK

1. Review the Scrum process – focus on the “**Sprint planning**” ritual. A useful additional resource is: <https://www.scrum.org/resources/what-is-sprint-planning>
2. Prepare to hold your first Sprint planning ritual this week

## **Task 2 – Reflective journal – 1hr**

Discuss your reflection from last week with your class supervisor. They will mark your work and offer immediate feedback useful to completing the next reflection task.

While you are waiting, you can pick an experience you had in the last week and start preparing to reflect on it over this week.
